Mechanical Engineering Club
Mechanical Engineering Club Executive Nomination
Re: VP Social A or B

Dear Mr. Sedore, and all Members of Mechanical Engineering

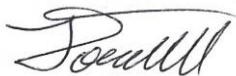

I am in my third year of engineering, proudly enrolled within the Mechanical Engineering discipline. I will be going into my fourth year out of the five I intend to take in finishing my degree, and would like to run for the Position of VP Social, A or B.

As a third year Mechanical Engineering student, I have witnessed many a club email go unread among my peers, or events grossly underrepresented by our discipline. I hope that I may enkindle a greater sense of camaraderie among the students of Mechanical Engineering, and increase the presence of our discipline around the campus.

I believe I can achieve my goals by broadening the brand of Mechanical Engineering on campus. I think an increased social presence will boost pride within this discipline, and develop a student base which will be excited for every event.

I hope you may accept this letter and the enclosed form as my self-nomination for VP Social.

Sincerely and with thanks,

James Dowell
