Chris Keen – VP Social

ckeen@ualberta.ca

To whom it may concern,

Hello, my name is Christopher Keen. I’m a second year mechanical engineering Co-Op student currently heading into my third year this coming spring/summer semester, and I am running for the position of VP Social within the Mechanical Engineering club.

For the past year I have been an active member as well as the second year representative within the Mechanical Engineering Club. During this time my duty was to keep the club informed of the second year on goings such as exams, and to keep my fellow second year students informed of current events being held by the Mechanical Engineering Club, both of which I successfully did. Furthermore, I also volunteered at almost all club events.

If elected as VP social my goal is to increase event turnout, as well as to keep club activities and events running during the spring/summer term. In order to accomplish these goals, I’d like to keep the mechanical engineering club’s social media, and weekly updates active during the spring and summer semesters as doing so will boost awareness of our events as well as overall knowledge of the club itself thus increasing participation.

I hope that you elect me as one of your VP Socials for the coming year.

Best,

Christopher Keen
